## AZO CRANBERRY®

**Product Description:** Designed as a preventative tool for chronic UTI sufferers, AZO Cranberry® is the only cranberry supplement that contains a clinically proven daily dose of pure cranberry concentrate which helps cleanse the urinary tract and prevents bacteria from adhering to the bladder wall. AZO Cranberry supports urinary health\* without the sugar or calories found in cranberry juice and cranberry cocktail blends.

**Ingredients:** The active ingredient in AZO Cranberry is PACran, high potency cranberry made from early black cranberries, which have the highest proanthocyanidins (PACs) content. PACs are natural compounds in cranberry that help block the attachment of harmful bacteria to the bladder wall and assist in the upkeep of the urinary tract.

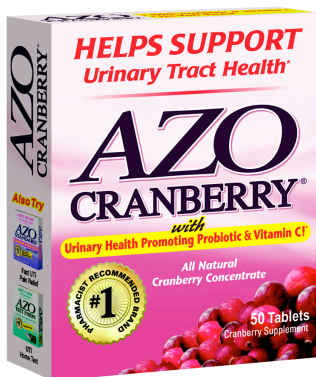

**Suggested Use:** Take two tablets daily with a full glass of water. AZO Cranberry can be used reactively at the onset of UTI symptoms to help minimize the infection but is most effective as a daily supplement to maintain a healthy urinary tract.

**Suggested Retail Price:** \$9.49 for 50 tablets & \$13.99 for 100 softgels

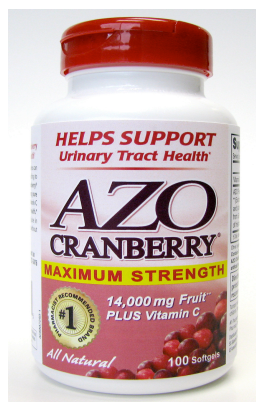

**Where To Find It:** AZO is available at CVS, Rite-Aid, Walgreens, Wal-Mart, Target, drug stores, food stores and other major retailers.

**AZO Products:** AZO has a range of products that promote urinary and vaginal health including AZO Urinary Pain Relief, AZO Test Strips and AZO Yeast.
