AZO URINARY PAIN RELIEF™ MAXIMUM STRENGTH

Product Description: AZO Urinary Pain Relief™ Maximum Strength is an over-the-counter pain reliever specifically designed for treating the symptoms associated with a urinary tract infection (UTI) such as pain, burning, urgency and frequency. Unlike a general pain reliever, AZO's maximum strength formula goes directly to the source of UTI pain, providing fast relief exactly where it is needed, within an hour of taking the recommended dose. The #1 Pharmacist recommended brand for relieving the painful symptoms associated with a UTI, more women turn to AZO than any other product in its category.

Active Ingredient: One tablet of AZO Urinary Pain Relief Maximum Strength contains 97.5mg of Phenazopyridine Hydrochloride, which is the active ingredient specifically designed to target the urinary tract. Phenazopyridine Hydrochloride is the same urinary pain reliever prescribed by doctors but is now available over-the-counter in this dose.

Suggested Use: For relief from the symptoms associated with a UTI take two tablets three times daily with or after meals, with a glass of water.

Suggested Retail Price: \$7.49 for 12 tablets (also available in 24ct)

Where To Find It: AZO is available at CVS, Rite-Aid, Walgreens, Wal-Mart, Target, drug stores, food stores and other major retailers.

AZO Products: AZO has a range of products that promote urinary and vaginal health including AZO Cranberry, AZO Test Strips and AZO Yeast.
